Choosing a budget carrier that is certified and credible is a challenging task. But, not anymore, when we are here to suggest to you this airline for one of the finest services. You don't need to stress over their policies, as most of them are flexible and revolve around customers only. If you are concerned about choosing your particular seat, here are the important details that you should understand before reserving your tickets.

## **JetBlue Airways seat selection policy-**

- The easiest and most effective way to select your seat is during the initial reservation process on the site or app.
- Enter your travel and passenger details to look at the automatically popped-up seat map in front of you.

- Passengers holding Blue, Blue Plus, and Blue Extra fares can choose any core seat free of charge at any time until check-in.
- Basic [\*\*JetBlue Airways Flight Tickets\*\*](#) are most restrictive which do not let you choose a particular seat free of charge in advance.
- If you don't want to pay while holding a basic ticket, wait until a random allotment happens and you get a seat free of charge when you check in.
- If you are travelling on a premium ticket, you can choose any seat from your cabin at any time, free of cost.

### **How early can you choose?**

- You are free to pick your seat as early as 10 months before your flight, which is possible.
- If your ticket allows you to choose in advance or if you are okay to pay the associated fee, do it before your flight to select or change your place through the 'manage trips' segment.
- If you haven't chosen, and a check-in time arrives, this is the last time to choose your preferred place if they are still available for a fee when you are holding a basic ticket.

### **Important considerations-**

- For the loyalty program members, there is flexibility to move into more spacious seats free of charge at check-in if they are available.
- For higher-status holders, there is an open window to reserve more spacious seats at the time of booking without an extra charge.
- Travelling families with children on their itineraries are free to ask an adjacent place for their kids.
- Modification of your place can be possible, even if you want to get it done multiple times. But a difference will be payable through you for choosing a higher cabin class seat.
